FULL-STACK SOFTWARE DEVELOPER

Full-Stack web engineer having experience working with multiple languages and frameworks including React and Ruby on Rails. I thrive to learn new technologies, and learn new languages very quickly. I constantly strive to find the most efficient methods and tools to complete tasks. Self-motivated, and eager to grow as a developer.

TECHNICAL SKILLS

Systems: MacOS, Linux

Languages: JavaScript, TypeScript, HTML5, CSS3, Tailwind, Bootstrap, React, NodeJS, NEXT.js, Express, Deno.js, MongoDB, Ruby on Rails, SQL(PostgreSQL, Sqlite3, MySQL), Redis, GraphQL

Tools: Google Cloud, AWS(Amplify, EC2, S3), NGINX, Docker, Heroku, Vercel, Netlify, Postman, Socket.io

TECHNICAL PROJECTS

Lukon Drink-Finder - [Link](#) | [Github](#)

JavaScript, HTML, CSS

- Designed a basic, user-focused website to allow anyone to choose a preferred spirit and view an assortment of possible drinks that can be made with it
- Built an interactable front-end fetching external api data using JavaScript and deployed with AWS S3
- Implemented simple event-listeners to manipulate the DOM

Run for the Hills - [FE-Github](#) | [BE-Github](#)

React, Rails, Tailwind CSS

- Designed and built an app for users to find romantic matches in a country setting
- Developed a RESTful API having full CRUD capabilities with authentication and authorization, using sessions/cookies
- Styled with Tailwind to efficiently create a clear and straightforward user experience

Keyboard App - [Link](#) | [FE-Github](#) | [BE-Github](#)

React, Ruby on Rails, ActiveStorage, Devise, Tailwind CSS

- Deployed a full-stack app for anyone to practice and record typing speeds and compare them against previous scores and other users
- Utilized Devise and BCrypt for user authorization and authentication alongside JSON Web Tokens
- Deployed to a Google Cloud virtual machine instance, utilizing NGINX to reverse proxy requests

EXPERIENCE

Berkshire Magazine, Pittsfield, MA

3/2021 - 6/2022

Photographer

- Consulted with clients and magazine staff during photoshoots to meet desires and ensure a presentable product
- Collaborated with other, local photographers and came up with creative solutions to support visuals for events and advertisements

EDUCATION

Flatiron School, Denver, CO

11/2022

15-Week, Live Full-Stack Course, Javascript, React, and Ruby on Rails program
